

## HSE Engineer

<b>Company</b>	<b>Criterium Energy</b>
Department	Health, Safety, Security and Environmental
Location	Jakarta, Indonesia
Reporting	HSSE Team Lead

### About Us

Criterium Energy Ltd. is a publicly traded upstream energy company focused on the acquisition and sustainable development of assets in SE Asia that are capable of scalable growth and cash generation. The Corporation focuses on maximizing total shareholder return by executing on three strategic pillars, namely (1) successful and sustainable reputation, (2) innovation and technology arbitrage, and (3) operational and safety excellence.

Criterium's Indonesian portfolio is currently comprised of a 42.5% non-operated interest in the long-life Bulu PSC and 100% operated interests in the producing Tungal and West Salawati PSCs. The Corporation intends to deliver a balanced portfolio through high cash flow production assets, near term growth assets and longer life development assets to maximize shareholder returns while managing its balance sheet.

### Why work with us?

Want to make an Impact? At Criterium our people are our most valuable resource. We're a diverse team of passionate individuals, guided by our values, who are excited to shape the future of energy. We strive to be a global operator whose strength is exemplified in our diversity of geography and people.

As a new member of our team, you should be committed to life-long learning and are encouraged to bring fresh new ideas to solve complex problems. We recognize that innovation and success are a result of providing our people with the right tools. At Criterium, our corporate and employee values are aligned to foster an environment of respect and growth. We believe in providing equal opportunities across all offices and jurisdictions.

The world is rapidly changing. Join us in our goal of providing sustainable energy to the worlds growing economies. Be a part of the solution.

## Job Description

### Purpose

---

The HSE Engineer role will report directly to HSSE Team Lead and will be maintaining HSE Document, update HSE Policies to minimize risks, and ensure regulatory and legal compliance with Indonesia and International occupational health and safety laws and regulations. They explain how to prevent accidents, implement safety plans, and respond to emergencies.

### Responsibilities
